Service Information Sheet

Sub-leading fire-fighter (SLFF)

Objective

Coordinating, guiding, and executing all preventive tasks to minimize fire hazards and carrying out repressive action during disasters and emergency situations.

Description

Our SLFF'ers have completed (Dutch accredited) job training, have practical experience, and are responsible. Usually these employees have finished supplementary training courses in their subject area, as well as in areas like communication and coordination. By bringing in these professionals, an important contribution can be made towards the implementation of your fire prevention policy. This will relieve your organization of the burden, yet provide a solid guarantee that your fire safety requirements are in place.

Below are some of the services provided:

- Creating and communicating work instructions.
- Inspection officer for all preventive tasks.
- Coordination and management based on applicable procedures and instructions.
- Investigations of incidents involving hazardous materials.
- Repressive services within fire department organizations.
- Coordination within Emergency Response Teams (ERT) and emergency services.
- Officer in charge of protective gear for incidents involving hazardous materials.

If desired, the set of services can be customized after consultation with the client.

Approach

If you would like to engage our services, we will select a staff member who best suits your organization/project. We do this on the basis of information you provide to us, such as the necessary experience, (project) location, duration of commitment, full-time or part-time commitment, etc. Following a preselection, you will receive resumes from us and an open-ended offer. If desired, it is possible to arrange an interview with our workers. Upon receipt of written confirmation of the job, we will coach our workers based on your expectations, and the work in collaboration with you will commence.

Price Indication

We hire out our employees to your organization based on hourly rates. For this service, these rates range anywhere between €32,50 and €50,- per hour, during normal business hours.

This rate, however, does not include:

- VAT.
- Travel and lodging costs.
- Equipment costs.

For each request, a formal quote will be provided.
