Service Information Sheet

Support on teaching and instruction

Objective

Imparting knowledge regarding safety, health and welfare by bringing in highly educated and experienced course lecturers.

Description

If one would like employees to execute their tasks professionally and as agreed in every aspect, then he must possess the knowledge and skills to develop and interest herein. For this reason, it is necessary for every company to instruct, train or further educate its employees. Additionally, it is important to fine tune the course material and teaching methods to achieve the desired result, as well as to accommodate the level of the target group. If you do not do this, then your educational efforts will always have a limited effect or perhaps no effect at all. We also notice from experience that language differences will play an increasingly important role. Therefore, it is wise to develop a training plan, determine the course material, and select a good professor. Disc can be of service in all of these areas.

Approach

Should you choose Disc to be your partner, you can be certain that we will select a consultant with care who has experience in the field and is familiar with your branch's line of work. Additionally, not only does education level play a role, but certainly competencies, experience, and communication skills as well.

Below are some of the services provided:

- Providing training courses on safety management systems and the development of the corresponding course material.
- Delivering instructors for the VCA basic training and VOL.
- Providing training courses on risk management systems and the development of the corresponding course material.
- Training courses on reporting accidents, registration, and accident investigation techniques.
- Training internal auditors concerning management systems (individual or integrated).
- Training instructors on how to give courses (train the trainer).
- Other, more specific job training such as EFS, gas measuring, and scaffolding inspection can be arranged upon request.

If desired, the set of services can be customized after consultation with the client.

Price Indication

We hire out our consultants to your organization based on hourly rates. For this service, these rates range anywhere between €70,- and €120,- per hour, during normal business hours.

This rate, however, does not include:

- VAT.
- Travel and lodging costs.
- Equipment costs.

For each request, a formal quote will be provided.
