Service Information Sheet

Performing safety inspections

Objective

Checking whether the current status complies with agreed upon situations and work methods.

Description

In order to improve and manage your policy, it is necessary to check periodically whether the current situation agrees with the target or preferred situation. For this, a periodic inspection is a good tool. During an inspection, it is important that one can distinguish between various focal points.

Approach

Should you choose Disc as your partner, you can be certain that we will select a consultant with care who has experience in the field and is familiar with your branch's line of work.

Additionally, not only does education level play a role, but certainly competencies, experience, and communication skills as well.

Below are some of the services provided:

- Physically conducting internal audits or gap analyses with respect to the given standard.
- Performing all auditing related duties such as: inspections, document checks, observations, and interviews.
- Determining deviations from the standards and establishing intermediate and final reports.
- Proposing adequate administrative regulations in following the auditing results.
- Designing/developing a plan of action.
- Creating tools to be able to introduce improvements from the plan of action.
- Advise on implementing and securing the plan of action.

If desired, the set of services can be customized after consultation with the client.

Price Indication

We hire out our consultants to your organization based on hourly rates. For this service, these rates range anywhere between €70,- and €120,- per hour, during normal business hours.

This rate, however, does not include:

- VAT.
- Travel and lodging costs.
- Equipment costs.

For each request, a formal quote will be provided.
