Service Information Sheet

Quality Support/Advice Expert

Objective

Advising the (project) organization at a managerial level concerning quality issues.

Description

Our employees have the necessary theoretical knowledge and practical experience in promoting and securing environmental management. This can occur on a company-wide scale at a branch or project level. In all cases, our employees are the appointed persons for coordinating quality management in all its facets.

They are very aware of increasing market demands for a high quality product and are familiar with the systems available for this. They can contribute to the development, implementation, and securing of your quality policy and, thus, for your price/quality ratio as well.

Below are some of the services provided:

- Designing/developing safety procedures, annual plans, annual reports, etc. as well as the evaluation, modification, and implementation thereof.
- Periodic reporting and evaluations.
- Developing and optimizing quality management systems.
- Assisting when explicitly creating/describing the current organization with respect to the quality system.
- Verifying processes in practice via audits and inspections for example.
- Implementing procedures and defining trends.
- Making recommendations for the purposes of improving organization and quality systems.
- Advising on field-related project management questions.
- Making employees aware of quality assurance.
- Preparing for and overseeing audits by third parties.
- Conducting internal audits.

If desired, the set of services can be customized after consultation with the client.

Approach

If you would like to engage our services, we will select a staff member who best suits your organization/project. We do this on the basis of information you provide to us, such as the necessary experience, (project) location, duration of commitment, full-time or part-time commitment, etc. Following a pre-selection, you will receive resumes from us and an open-ended offer. If desired, it is possible to arrange an interview with our workers. Upon receipt of written confirmation of the job, we will coach our workers based on your expectations, and the work in collaboration with you will commence.

Price Indication

We hire out our employees to your organization based on hourly rates. For this service, these rates range anywhere between €65,- and €110,- per hour, during normal business hours.

This rate, however, does not include:

- VAT.
- Travel and lodging costs.
- Equipment costs.

For each request, a formal quote will be provided.
